

DIABETES AWARENESS

Second Council Meeting

October 22, 2016

We are very happy to report that Diabetes Awareness is growing in Multiple District 6! As you can see from the attached Goals Update, we are charging forward to make sure that as many Lions as possible are on board as we work to increase awareness of this terrible disease.

PDG Gwen "Cookie" Balk has written a Diabetes Fight Song, which has already been sung at some events. We would like to have 2nd VDG Carol Lambert, who is also involved in Diabetes Awareness is 6NE, lead us in singing this song.

We have published two monthly newsletters in pdf and text formats that have been well received by Lions all over the state. We remain hopeful that news will begin to pour in about activities from all four districts. Let's get something going out there! Help us to spread the word that as Lions, we need to pay attention to Type 1 and Type 2 diabetes. They are a leading cause of blindness and can be a matter of life or death to the uninformed.

Respectfully submitted,

Carol Louks and Janice Davis
Co-Chairs, Diabetes Awareness
