

**MD 6 GMT  
Report  
August 6, 2016**

**The Global Membership Team for Multiple District 6 is on schedule to do good things for the Lions year 2016-17.**

**CENTRAL DISTRICT**

**The Central District has started a new club this year. This club is a carryover from the last Lions year but will be counted in 2016-17.**

**There is room for other clubs in the Central District and plans are under way to form another club.**

**SOUTHEAST DISTRICT**

**The Southeast District has been working on low membership clubs and has seen some progress. The program of sending inquiries from International has been successful and well received. I estimate about 10 members in the state from the information.**

**I am not aware of a new club being worked on in the Southeast District.**

**NORTHEAST DISTRICT**

**The Northeast District has formed one new club and is working on another club for the year 206-17. The Northeast District has set some very high goals and is on line to accomplish these goals.**

**WEST DISTRICT**

**The west district is working on a new club with some progress being seen. This endeavor is a slow go because of its location.**

**There are six locations being surveyed for possible clubs. Guiding lions are being trained and other ground work being completed.**
